# How to present and report?

- Summary
- Introduction
- Objectives
- Methods
- Description (what was done)
- Discussion (what was found)
- Results
- Conclusions and recommendations

# Tasks

- What is the site?
- Where is the site?
- How did you find it?
- What have you done?
- Why have you done it ?
- How you did it?
- What did you find?
- What does it mean?
- Based in what evidences?
- Is there recommendations?

# Remember...

- Explain to someone that was not there
  - Steps and procedures
  - Sequence of events
  - Evidences
- Interpretation
- Relation with preliminary search

# Oral presentations

- Each group:
  - Can use photos to justify and explain;
  - Select one person to present orally;
- After presentation facilitators will commend and ask.
